ENGINE GENIE

Mobile Small Engine Services

COMMERCIAL EQUIPMENT SUPPORT

Henderson & Las Vegas Valley
Mobile service at your yard or jobsite

Keep your crews working. We come to you.

Engine Genie provides onsite diagnostics, repair, and preventive maintenance for businesses that depend on small-engine equipment. Reduce downtime, avoid shop drop-offs, and service multiple units in one visit.

Equipment We Service

- Push, riding, and zero-turn mowers
- Trimmers, edgers, blowers, and hedge equipment
- Chainsaws and pole saws
- Portable generators and engine-driven equipment
- Pressure washers, pumps, and surface-cleaning equipment
- Other gas-powered commercial small-engine equipment

Commercial Services

- Onsite diagnostics and repair
- No-start, fuel-system, carburetor, ignition, and running issues
- Preventive maintenance and tune-ups
- Multi-unit service days and equipment inspections
- Backup / overflow repair support when your primary shop is backed up
- Evening and weekend availability by appointment

Built for equipment-heavy businesses

- Landscaping & lawn-care crews
- Tree-service companies
- Pressure-washing / exterior-cleaning crews
- Mobile detailers & property-maintenance teams
- Contractors using generators or small-engine equipment

How It Works

1. Contact us with the equipment type and problem.
2. We come to your yard or jobsite for diagnosis/service.
3. You receive the repair price before additional work is performed.
4. Approved repairs are completed onsite when practical; parts/follow-up are coordinated as needed.

Commercial pricing

Pricing is quoted based on equipment count, service scope, and location. No additional repair work is performed without approval.

Need a reliable backup when equipment goes down?

Call, text, or email to discuss your equipment and service needs.
